osamahalbahnasi.com

SAP-certified consultant and software engineer. Beat out 1,500+ applicants worldwide for a spot in SAP's Young Professionals Program — one of about 30 who got in. Holds two SAP associate certifications: E2E Business Processes and Generative AI. Three years at RFID Saudi Trading Company, where he ran delivery as business analyst and team lead across two internal platforms. Looking for an SAP consultant role in ERP, S/4HANA, or BTP.

PROFESSIONAL EXPERIENCE

SAP | SAP Digital Skills Center [↗](#) 04/2026 – 06/2026 | Riyadh, Saudi Arabia
Young Professionals Program (YPP) — Trainee

- Beat out 1,500+ applicants worldwide for one of roughly 30 spots in SAP's partner talent program.
- Trained in S/4HANA, Business Suite, BTP, and Generative AI. Went through FI, CO, MM, PP, and SD process walkthroughs, plus a consulting-skills track.
- Certified: E2E Business Processes (IEE2E) and Generative AI Developer (C_AIG).

RFID Saudi Trading Company [↗](#) 10/2022 – 09/2025 | Dammam, Saudi Arabia
Software Engineer / Business Analyst & Delivery Lead

- Ran delivery on 3PL, a logistics and warehouse platform, for a four-person team — two backend, two mobile. Coordinated requirements straight with internal stakeholders. Shipped authentication, warehouse and storage management, inventory tracking, and filtered reporting with Excel export.
- Owned the SRS for CarLog, a fleet maintenance and accident reporting system, across four revisions. Coordinated one backend and one mobile developer through phase 2 planning. Delivered notification workflows, exportable maintenance records, and conditional equipment checklist logic.
- Built and presented a department-wide IT status review and strategic roadmap for leadership: security practices, documentation standards, training across the application portfolio.
- Handled release communications to internal stakeholders. Collected feedback, wrote the user documentation and how-to guides. Set up documentation practices that cut friction between developers.
- Took over a dead internal password manager app and got it stable for a production handoff. Owned documentation and content organization for the company website alongside its developer.
- Cleaned and standardized data on the application server with SQL.

EDUCATION

B.S. Software Engineering 09/2019 – 12/2024 | Dhahran, Saudi Arabia
King Fahd University of Petroleum and Minerals (KFUPM) [↗](#)

CERTIFICATES

- SAP Certified Associate – E2E Business Processes for SAP Business Suite (IEE2E), via YPP [↗](#)
- SAP Certified Associate – SAP Generative AI Developer (C_AIG), via YPP [↗](#)
- 70-462: SQL Server Database Administration (DBA) — Microsoft (Udemy) [↗](#)

PROJECTS

Personal portfolio site [↗](#) 08/2026 – 09/2026
• Built osamahalbahnasi.com [↗](#) with Next.js, Motion, and Tailwind CSS.

Horse Racing Database System [↗](#) 02/2024 – 03/2024
PostgreSQL DBA project — KFUPM ICS424
• Designed a PostgreSQL database on a horse-racing schema. Built materialized views, stored procedures, and triggers. Handled concurrency control, indexing, backup and recovery, and performance analysis.
